DGT 3000

NOTE: This clock uses menu options that are visibly selected. Pay attention to the blinking text on the display for current selection.

NOTE: The GO/NEXT button (far right) and the PLAY/PAUSE button (center) have similar look.

1. <u>Start/Stop</u>: ON/OFF button is at the bottom

2. **Select option 30**: With clock on, the option selected will blink at the bottom of the display.
   Use +/- buttons to navigate to 30. Press GO/NEXT button on far right to select.
3. Enter edit mode: DGT clocks are in edit mode by default
4. <u>Set time</u>:
   a. <u>Select Delay option</u>: The delay option will blink on top right. Use +/- buttons to navigate to US-DLY (US Delay).
   b. <u>Set time</u>: Current digit is blinking on display.

      Use +/- to change. Press GO/NEXT (far right) to move forward to next digit. Set time to 1:30:00 for both players (or another suitable time).

      ```
      0.05  BNS  0.05
      ```

      Press GO/NEXT to move forward to next setting
   c. <u>Set Delay</u>: Delay is set for each player separately. Display should read as shown for 5 second delay
   d. Press GO/NEXT repeatedly to accept all other blinking options
5. <u>Exit Edit mode</u>: This is automatic after all settings are complete
6. <u>Save settings</u>: The clock remembers previous settings.
   If you want to change the times, just change the times. The clock will be in edit mode by default
7. Press the PLAY/PAUSE button in the center to start play

Future Use:
1. Turn the clock on. If necessary, press either + or - until (option) "30" is shown on the bottom part of the display.
2. Press the center PLAY/PAUSE button once.

Additional time:
1. Press the PLAY/PAUSE button briefly to pause play
2. Press the PLAY/PAUSE button for <u>three seconds</u> to modify time and move counter (if used)
   a. Change the +/- buttons to change the blinking digit
   b. Use the GO/NEXT button to advance to the next digit
   c. After time, move counter may also be similarly changed
3. Press the PLAY/PAUSE button to restart timer
